Topics offered in 2020:
- How Switzerland got rich
- Finance for the Future: Sustainable Finance and FinTech
- Deep Dive into Blockchain - Linking Economics, Technology and Law

Experiences of Summer Schools in 2019
Student Testimonial

Karoline, master student of chemistry, went to the University of Amsterdam in the summer 2019

«If I had to summarize my experience in a single word, I would say simply amazing. I learnt so much about life itself and made so many new friends, that I can confidently say that everybody who has a chance to go there should definitely do so. It was a great mix, so it never was boring. And most importantly, the food was super tasty and had a big selection.»
